

ANIKET SUTAR

Java Full Stack Developer

+91 7447505797 | sutaraniket63@gmail.com | Pune, Maharashtra | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Motivated Java Full Stack Developer with hands-on internship experience building scalable backend systems using Spring Boot, REST APIs, and MySQL. Proficient in OOP, data structures, microservices architecture, and Agile/Scrum development workflows. Proven ability to design RESTful APIs, implement Spring Security, write JUnit tests, and deliver clean, maintainable code in cross-functional team environments.

TECHNICAL SKILLS

Programming Languages: Java, SQL, C, C++

Java & Frameworks: Core Java, Spring Boot, Spring MVC, Spring Security, Hibernate, JPA, JDBC

Backend Development: REST APIs, Microservices Architecture, OOP, Multithreading, Java Collections Framework

Frontend Development: HTML5, CSS3, JavaScript, React.js

Databases: MySQL, PostgreSQL

Tools & Practices: Postman, Git, GitHub, JUnit, Agile/Scrum, Code Reviews, Technical Documentation

PROFESSIONAL EXPERIENCE

Java Full Stack Developer Intern | Unique System Skills India Pvt. Ltd., Pune *Aug 2025 – Present*

- Designed and developed backend modules using Java and Spring Boot, delivering scalable and maintainable application features.
- Built RESTful APIs for authentication, order processing, and user management; documented all endpoints using Postman.
- Wrote unit and integration tests using JUnit, improving code reliability and reducing defects before deployment.
- Implemented database operations with MySQL, Hibernate, and JPA to ensure efficient and accurate data handling.
- Debugged and resolved application defects across backend services, improving overall system stability.
- Participated in Agile/Scrum ceremonies including daily standups and sprint planning; managed source code using Git and GitHub.
- Conducted code reviews, applied clean code principles, and contributed to technical documentation.

Embedded System Design Associate | LvlAlpha Private Limited, Pune *Jan 2024 – Jul 2025*

- Contributed to firmware development for wearable health monitoring devices (ArchEON and HadEON), gaining real-world embedded product experience.
- Worked on microcontroller-based system integration and peripheral interfacing in hardware-software environments.
- Debugged embedded systems at hardware and firmware levels; supported testing, validation, and quality assurance activities.
- Developed strong analytical and problem-solving skills through structured debugging and full product lifecycle involvement.

PROJECTS

Foodie Hub – Food Ordering Backend | Java, Spring Boot, REST APIs, MySQL, Spring Security, JUnit, Postman

- Architected and built a scalable REST API backend for a food ordering platform using Java and Spring Boot.
- Designed and implemented endpoints for user authentication, menu management, and order processing with input validation and error handling.
- Used Hibernate/JPA with MySQL for data persistence; secured APIs using Spring Security.

- Wrote JUnit test cases covering key business logic; tested all endpoints and generated API documentation using Postman.

Grade Track – Student Management System | *Java, Spring Boot, React.js, Spring Security, JWT, MySQL, Git*

- Built a full-stack student management web application with a Spring Boot REST backend and React.js frontend.
- Implemented role-based access control (Admin/Student) using Spring Security with JWT authentication.
- Designed relational database schema and RESTful APIs for full CRUD operations on student and grade records.
- Managed source code with Git and practiced collaborative development workflows.

Smart Bus – Bus Reservation System | *Java, OOP, Collections Framework*

- Developed a console-based bus reservation system using Core Java with clean OOP design and modular architecture.
- Implemented dynamic seat allocation, booking management, and cancellation logic using the Java Collections Framework.

EDUCATION

Bachelor of Engineering – Electronics & Telecommunication Engineering

2020 – 2024

Zeal College of Engineering and Research, Savitribai Phule Pune University

CGPA: 7.40 | First Class

CERTIFICATION

Java Full Stack Development – Unique System Skills India Pvt. Ltd., Pune | 2025
